

Your student's **username** has been determined by the following formula in TEAMS:  $\text{Student Name} + \text{Student ID} = \text{Username}$

**Example:** Name: Sandra Rajee + Student ID: 123456 = Username: a\_rj123456

Their **password** is determined by the following formula:  $\text{Initials} + \text{Birthdate} = \text{Initial Password}$

**Example:** Aisd + Birthdate: January 23, 2008 = Initial Password: Aisd20080123

Students in grade PK-2 will be required to change their password described above. **For students in grades 3-12, once they log in for the first time, they will be required to change their password.** For help, please go to [Return to School 2020 Technology Resources page](#) under the heading 'RESETTING STUDENT PASSWORDS' and a calendar email has been sent to students with their email and a link.

See a link in 'A link in ISD's updated learning management system' for Pre-K, Kindergarten, 1st Grade, and 2nd Grade. It allows students to engage in interactive activities that have the knowledge they need to understand, learn, and grow.

See a link in 'Seesaw Parent Help Videos (en Español)' and 'Seesaw Parent Help Videos (en Español)' and 'Seesaw Parent Help Videos (en Español)' and 'Seesaw Parent Help Videos (en Español)'.
